---

## CAREER OBJECTIVE:

Looking for a challenging role and position in an organization and to deliver excellent service and quality product within stipulated time.

## TECHNICAL EXPERIENCE SUMMARY:

I have 6 months of hands-on experience in frontend development through an internship. During this time, I:

- Built responsive and dynamic web applications using **React.js**.
- Developed interactive UI components leveraging **JavaScript**.
- Designed modern, responsive layouts with **Tailwind CSS**.
- **Bootstrap**: Experience in rapid prototyping and creating consistent UI components.
- Structured web content effectively using **HTML**.

This experience enhanced my skills in creating user-friendly, efficient, and visually appealing web applications.

## Core Responsibilities:

- **JavaScript**: Solid understanding of closures, event bubbling, prototype inheritance, and JavaScript engine optimizations. Familiar with modular JavaScript and package management using tools like npm/yarn.
- **React.js**: Expertise in component-based architecture, React state management (useState, useReducer), and routing using React Router. Experienced in lifecycle methods and leveraging the Context API for efficient state sharing across components.

Demonstrated ability to collaborate with cross-functional teams, troubleshoot complex UI issues, and deliver pixel-perfect designs while maintaining code quality and performance standards.

## TECHNICAL SKILLS:

<b>React. Js</b>	React Hooks(useState,useEffect,useReducer) ,Redux tool kit and Context API
<b>JavaScript</b>	Event Loop and Async Programming, Prototypal Inheritance, DOM Manipulation, ES6+ Features, JSON, Event Handling, Modules
<b>Css , Tailwind Css</b>	Utility-First Framework, Responsive Design, State Variants, Dark Mode Support, Customizable Themes, Flexbox and Grid Utilities, Spacing Utilities, Typography Utilities, Custom Plugins
<b>Html</b>	Structure and Semantics, Tags and Elements, Attributes, Block-Level vs Inline Elements, Forms and Inputs, Media Elements, Hyperlinks, Semantic HTML, HTML5 APIs
<b>Java Language, SpringBoot</b>	Object-Oriented Programming (OOP), Exception Handling, Collections Framework, Multithreading, Streams and Lambda Expressions, Annotations, Interfaces and Abstract Classes, Memory Management, <b>SPRINGBOOT</b> : Dependency Injection, Database Integration, Error Handling, Security, Microservices Support
<b>Additional Skills</b>	AWS, Python programming language, Mysql, sql server, Linux,

## PROJECT EXPERIENCE:

**Client 1** : Spy d Technologies

**Company** : Spy d Technologies

**Role** : Frontend Developer intern

**Period** : Jun 2024– Nov 2024

**Spy d Technologies Private Limited:** is a technology-driven company specializing in software development, IT solutions, and consultancy services. The company focuses on delivering customized digital solutions to meet the unique needs of its clients.

As part of its operations, Spy d Technologies provides services such as:

- **Software Development:** Building scalable, secure, and efficient software tailored to client requirements.
- **Frontend Development:** Crafting user-friendly interfaces for web and mobile platforms, ensuring a seamless user experience.
- **IT Consultancy:** Offering strategic IT guidance to businesses for adopting the latest technologies and enhancing their digital infrastructure.
- **Web Design and Maintenance:** Designing modern, responsive websites and maintaining them for optimal performance.
- **Custom Solutions:** Developing bespoke applications and tools to address specific business challenges.

The company is committed to delivering innovative and high-quality technology solutions across diverse industries

### Responsibilities:

- **Designing User Interfaces (UI):** Collaborate with designers to create user-friendly and visually appealing interfaces.
- **Write clean, maintainable code** using HTML, CSS, and JavaScript along with frameworks like React
- **Ensuring Responsiveness:** Build applications that work seamlessly across devices and screen sizes.
- **API Integration:** Connect frontend components with backend systems via RESTful APIs or GraphQL.
- **Testing and Debugging:** Identify and fix UI bugs, ensuring cross-browser and device compatibility.
- **Performance Optimization:** Improve page load times by optimizing code, images, and other assets.
- **Security Implementation:** Prevent vulnerabilities such as XSS and CSRF by applying secure coding practices.
- **Collaboration and Documentation:** Work with cross-functional teams and maintain clear project documentation.
- **Custom Solutions:** Adapt designs and features for specific client requirements as part of consultancy services.
- **Continuous Learning:** Stay updated with emerging trends and technologies in frontend development to enhance user experience.

## EDUCATIONAL DETAILS

- **Master of Business Administration in Finance.** From Osmania university –July 2025
- **Masters of Computer Applications** from Wesley Pg College -Nov,2023 -- 75%
- **Bachelor of Technology** from TKR College Of Engineering And Technology – Nov, 2020 -- 60%
- **Intermediate** from Board of Intermediate – May, 2016 -- 93.5%
- **SSC** from board of secondary education - April, 2014 -- 82%

## PERSONAL DETAILS:

**Name** : KADARI SHEKAR

**Father's Name** : KADARI RAJAIAH

**Nationality** : Indian

**Languages** : English, Telugu, Hindi

**(Kadari Shekar)**
